<u>Contributing Schools</u> - Irene expressed concern that students from our main feeder schools are choosing to go to other secondary schools, following discussion is was agreed we may need to begin marketing Rodney College to promote what is offered if the roll continues to drop.

<u>Equity Funding</u> - Irene explained the new EQI funding method being used by MOE to provide schools with funding, in addition to core funding to be used to work in different ways to reduce the impact of socio-economic factors have on student achievement. The MOE has replaced decile funding with an EQI, ranging between 344 - 569 with the higher EQI indicating a school is facing a greater number of socio-economical barriers to student learning. The EQI number given to Rodney College is 484 and results in additional categories of funding

including Support for Inclusion of around 192K, while previous targeted funding of \$82K has been removed.

<u>Employment 2023</u> - details were provided about several changes in staffing for 2023 including resignations and appointments and Irene confirmed we will commence 2023 fully staffed.

The gym is also to be fully painted and have its internal ceiling lowered, along with lights upgraded to LED. The Food room units and chiller, installing the new dust extraction unit in wood room and removing asbestos benches in metal room. This is stage one of the projects that was split as the tender received on GETS was beyond MOE funding, and it was important to get as much work from the 5YP underway during the term break as possible. Stage two will involve

window replacement in metal and the development of the hospitality features in the food room, including creating the theory room between fabric and food.
